WORK EXPERIENCE

Microgenesis Business Systems

Jun. 2025 – Jul. 2025

Software Engineer Intern

Mandaluyong City

- Engineered and optimized the user interface for the Mgenius LMS platform using HTML, CSS, JavaScript, and PHP, improving usability, responsiveness, and user experience across the platform.
- Resolved over 25 targeted frontend tickets and feature enhancements by spearheading the mobile-responsive redesign of complex interfaces, including the Admin Dashboard, Daily Visits, and Group Reports.
- Managed local development, version control, and issue tracking across XAMPP, Git, and Notion, seamlessly deploying critical bug fixes directly to the staging environment.
- Achieved a perfect 4.0/4.0 "Outstanding" performance rating by consistently delivering high-quality UI solutions, independently resolving backend/frontend integration issues, and troubleshooting technical blockers for co-interns.

GNGN Inc. – Remote

Jul. 2022 – Sep. 2022

English Test Assessor (Independent Contractor)

- Evaluated 4,817 single-question English proficiency tests for Japanese students, efficiently scoring grammar, vocabulary, and comprehension.
- Delivered accurate and consistent evaluations while maintaining strict adherence to standardized scoring guidelines.
- Demonstrated strong attention to detail and the ability to process large volumes of data independently in a remote work environment.

EDUCATION

Emilio Aguinaldo College

Jul. 2026

Bachelor of Science in Computer Science

Dasmariñas, Cavite

- **Capstone Project:** Spearheaded the development and documentation of an automated Web-Based Room Scheduling System using React, Next.js, Node.js, and PostgreSQL. Integrated a Constraint Satisfaction Problem (CSP) algorithm for automated conflict detection and WebSockets for real-time availability tracking. As Project Lead, directed end-to-end execution—serving as lead technical writer, UI/UX co-designer, and QA tester while managing formal communications with research advisors, defense panelists, and sourcing IT industry experts for technical system evaluation.
- **Data Visualization & Analysis:** Created visual charts and data dashboards using Tableau, Power BI, and Looker for data science applications.
- **Web Development:** Developed responsive websites and user interfaces using HTML, CSS, JavaScript, and PHP.
- **App Development:** Developed Android applications with Android Studio using Java and XML.
- **Networking:** Designed and simulated network configurations using Cisco Packet Tracer.
- **Team Collaboration:** Worked on group projects involving version control, GitHub, and project leadership roles.

SKILL

Technical Skills

- **Programming Languages:** JavaScript, Java (OOP), PHP, SQL, Python, XML
- **Web & App Frameworks:** React, Next.js, Node.js, HTML, CSS, Android Studio

- **Databases & Cloud Deployment:** PostgreSQL, Supabase, Vercel
- **Data Visualization & Analytics:** Tableau, Power BI, Looker
- **Developer Tools & Platforms:** Git, GitHub, XAMPP, Cisco Packet Tracer, VS Code, Notion
- **AI & Productivity Tools:** ChatGPT, Claude, GitHub Copilot, Google Gemini, MS Office, Google Workspace

Soft Skills

- Project Leadership & Team Collaboration.
- Time Management & Deadline Execution.
- Technological Adaptability & Continuous Learning.
- Creative Problem-Solving & Analytical Thinking.
- Autonomous Work & Cross-Functional Communication.
